Subject: RE: [External] ACP Permitting Concerns

Thank you. I think I'm receiving mostly the same emails and some additional as I'm sure you are.

Subject: FW: [External] ACP Permitting Concerns

FYI,

I have received at least 50 emails this week from citizens asking the Governor and DEQ to hold 3 public hearings on a number of ACP issues. Emails mostly are addressed to the Governor, Secretary Regan, me---in different groupings. Most are coming only to me. Hannah has received upwards of 30 this week, 25 today.

Emails tend to seek an opportunity to address to ACP, Inc.'s latest responses to DEQ's request for additional information. They also urge the governor and DEQ to oppose the ACP as strongly as he opposes offshore testing and drilling. In addition, they argue inconsistency with climate change, more public process, unreliable ACP economic data, and disproportionate impacts on vulnerable populations.

CAUTION: External email. Do not click links or open attachments unless verified. Send all suspicious email as an attachment to report.spam@nc.gov.

Dear Mr. Tarr and Mr. Regan,

As a citizen of North Carolina, I am concerned about the pending approval of the Water Quality Permit for the Atlantic Coast Pipeline (ACP, LLC). I ask that the Governor authorize the DEQ to immediately plan for at least 3 more public hearings along the proposed ACP corridor to address the economic development, health, safety and environmental concerns being raised, as well as claims and information submitted by the ACP, LLC since the close of the original comment period. I ask that Governor Cooper takes as firm a stance against the ACP as he has against offshore drilling. Building this pipeline will adversely impact hundreds of landowners and residents, with some of the most vulnerable residents of eastern NC facing most of the adverse impacts. Finally, hundreds of vulnerable streams, wetlands, and rivers will be degraded for this project. Thank you both for considering my request.

Regards,
Stephen Townsend
